The UpWholeStory - HelpHER!

The HelpHER Upcycled bags initiative was launched on 18th July 2018 in Chennai by the EcoConnectors Trust. The trust aims at providing connects and solutions for sustainable living by education and motivation with its key focus on Solid waste management, conservation of resources and sensitive greening. HelpHER bag is an environment friendly social initiative by this trust.

When you Buy a **HelpHER Bag**

You Save HER - The Mother Earth from plastic bags.

And You Help HER - The Self-Help Group Woman who made it.

These HelpHER bags are upcycled bags from the **upholstery** materials in the sample catalogues that are discarded every year from the curtain and upholstery showrooms.

The materials are procured by our trust from the showrooms so that they don't end up in the waste lands and are beautifully stitched into unique trendy looking bags by the Self-Help groups and individual women whom the trust supports.

Each time you buy a HelpHER bag you Help a woman who stitched it and you just lent a hand in saving Mother Earth. Each bag just replaced a plastic bag and saved the waste cloth material from ending up in the dump yards. These bags are sold at Zero profit by the trust.
